Information Technology and Professional Workforce Support Services

ACI excels in providing workforce solutions for IT, Administrative, and Support Service Professionals. Our experience in delivering these services have been instrumental in helping a wide variety of companies and organizations achieve their goals, meet their project deadlines, and key business objectives.

By delivering exceptional service and value, ACI offers significant contributions to our client’s goals and success. Our clients in-turn provide tremendous value to their stakeholders, and in some instances, help change the face of technology in the world; e.g., major sustainable energy projects with Department of Energy/National Renewable Energy Laboratory and a National Organ Tracking Transplant Program with the VA’s National Surgery Office.

ACI offers the agility and low overhead of a Small Business combined with the knowledge and expertise of a large company.

BENEFITS:

- **Reduces Total Operating Costs:** *Alleviates the need to provide in-house IT capability and avoids costly capital investment*
- **Increases IT Longevity:** *Our time-proven methods and services provide long-term and sustainable results*
- **Enhances Flexibility:** *Our solutions are adaptable and scalable - they accommodate changing demands in a moment’s notice*
- **Provides Access to a Deep Knowledge-Base:** *Subject Matter Experts (SMEs) in diverse industry-leading technologies*
- **Improves IT Risk Management Solutions:** *Improves security by placing the development of IT solutions in the hands of experienced security experts*
- **Sharpens Focus to Specific Projects:** *Allows organizations to concentrate on their core business functions and succeed at measurable objectives*

Among many, ACI is honored to be providing services to:

Ball Aerospace Technology Corp	General Dynamics Information Technology
Department of Homeland Security	National Renewable Energy Lab (NREL)
Department of Veterans Affairs National Surgery Office	United Launch Alliance (ULA)
Department of Veterans Affairs, Office of Information & Technology	United States Fish and Wildlife Service
Digital Globe	United States Geological Survey
